**FOR IMMEDIATE RELEASE**

## **Flu Season is Around the Corner and There are Still Vaccines Available**

(Sedgwick County, Kansas) – Flu season is just around the corner, but there is still time to get your flu shot from the Sedgwick County Health Department. So far this year the Sedgwick County Health Department has administered about 5,500 flu shots. This is half of the Health Department's available supply.

Flu shots are free to those who show their Medicaid or Medicare cards and the cost is \$10 for all others.

"There are still plenty of flu vaccines available," said Sedgwick County Commission Chairman Ben Sciortino. "We hope residents in our community will take advantage of this important health initiative."

For more information on flu shots or immunization locations and hours, contact the Sedgwick County Health Department at 660-7301.
